SUPPLEMENTAL EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth H. Ohriner on June 30, 2006.

Upon further review, corrections have been made to the form of the allowable claims.

The application has been amended as follows:

- Claim 9 has been replaced with the following:

A pushback rack storage system, comprising: a pair of spaced apart pallet support rails; a cart including a pair of spaced apart side rails adapted to support a pallet, each side rail including a first wheel located adjacent to a first end of the side rail, and a second wheel located between a second end and a midpoint of the side rail; wherein the second wheels are rollable along the support rails up to a back end of the support rails, such that the side rails extend by about 30% to 45% of their length beyond the back ends of the support rails when the second wheels are rolled up against the back ends of the support rails; wherein each of the second wheels is located closer to the midpoint of the side rail to which it is attached than to the second end of the side rail, wherein the midpoint is between,

and equally spaced apart from, the first end of the side rail and the second end of the side rail.

- Claim 15 has been canceled.
- "15" has been changed to --9-- in line 1 of claim 16.
- Claim 17 has been replaced with the following:

A pushback rack storage system, comprising: a pair of spaced apart support rails; a cart including a pair of spaced apart side rails, each side rail including a first wheel adjacent to a first end of the side rail, and a second wheel between a second end of the side rail and a midpoint of the side rail, wherein the midpoint is between, and equally spaced apart from, the first end of the side rail and the second end of the side rail; with the second wheel at a position that is from 55% to 90% of the distance from the second end of the side rail to the midpoint of the side rail; wherein the second wheels are rollable along the support rails up to a second end of each of the support rails, such that the second ends of the side rails extend beyond the second ends of the support rails when the second wheels are rolled up against the second ends of the support rails.

- Claim 18 has been canceled.
- "18" has been changed to --17-- in line 1 of claim 19.
